

# Import Students from an SIS

If MasteryConnect has integrated with your district's Student Information System (SIS), you can add class lists to your tracker directly from the SIS.

Step-by-step

## How to Add Students to Your Trackers from an SIS

1. Click on **Trackers**.
2. Click on **Add Tracker**.
3. In the Add Students section, select **Import Students from SIS**. Then select your class from the list provided.

A screenshot of a web form for adding a tracker. The form has four main sections: 'DESCRIPTION' with a text input field containing 'Period 1' and a subtext '(ex. Period 1)'; 'FOLDER COLOR' with a teal folder icon; 'ADD STUDENTS' with a dropdown menu showing 'Import students from SIS'; and 'IMPORT FROM SIS' with a dropdown menu showing 'Science Remediation, Grade 9 - 105 - R. Wyman 105 (18)'. At the bottom, there are two buttons: an orange 'Create Tracker' button with a right arrow and a green 'Cancel' button.

The SIS automatically updates class rosters from the district level. You can't edit student lists from the SIS, but you can add or delete individual

students in your tracker.
