

# Building Our Future Together

ISD 15 BOND REFERENDUM PROPOSAL Vote Tuesday, November 7, 2017

## OVERVIEW:

- Modify site entrance to create dedicated right turn lanes in and out of the site
- Re-organize and modify main office to develop a secure entry
- Re-capture gym #3 for phy-ed use; relocate gymnastics program to room 135 at the High School
- Renovate science rooms 149 & 151 and associated spaces to meet current curricular needs
- Combine existing cafeteria 'A' and 'B' by expanding cafeteria 'B' into adjacent music rooms 138 & 140
- Construct a new music addition
- Renovate the existing cafeteria 'A' space for break-out, conference, and group learning areas
- Integrate existing computer labs 107A and 107B into media center and remodel the existing space to create an open collaboration media commons area
- Provide better access to the engineering tech computer lab by creating a corridor space
- Renovate existing FACS room 124
- Re-purpose existing room 146 for weights & fitness to re-capture the existing stage
- Re-capture 2nd floor spaces when 4th & 5th grades are relocated back to St. Francis Elementary School
- Re-organize special education spaces within the existing building
- Address physical deferred maintenance and infra-structure needs throughout the building including mechanical, electrical, and building envelope improvements
- Replace outdated interior finishes including demountable partition wall systems
